## Frontend Developer

## Profile

- I'm a 29 years old college undergraduate that unfortunately couldn't finish my Master's Degree.
- Due to mental health issues I decided to withdraw from a career as a engineer and instead worked for a couple years in my parent's farm where I learned the importance of a simple and honest life.
- More recently I began learning about web development and felt like there could be a serious possible future career for me as a Frontend Developer.
- You can visit my Github page and observe the proof of my progress.
